

HYUNDAI ANZA™ TRUCK BODY

 **HYUNDAI TRANSEAD**

ANZA™

A New Approach to Medium Duty Truck Bodies

Hyundai Translead has redefined the truck body supply chain with Anza. Hyundai's Anza Truck Body is ideal for last mile deliveries and rental fleets, and is the right solution for many industries and applications.

Flexibility

Anza has the ability to ship as multiple kits, changing how truck bodies are delivered and assembled, improving efficiency and flexibility.

Customization

Anza comes in various customized options that can be tailored to fit your needs, including load securement accessories, liftgate and ramp options.

Repairability

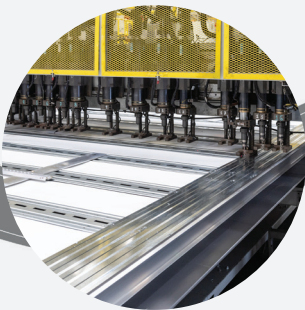

Built with proven trailer components such as the independent side panels, Anza offers ease of repair and minimizes downtime.

Reliability

Built with trusted Hyundai Translead components, including the extended bottom rail and composite panels, Anza ensures superior performance and long-lasting dependability for your fleet.

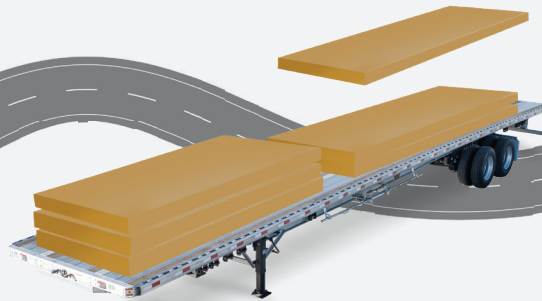

Step-By-Step Process:

STEP 01

Manufacturing

Built on Hyundai Translead's advanced manufacturing lines, Anza uses OEM parts for quality assurance.

STEP 02

Shipping

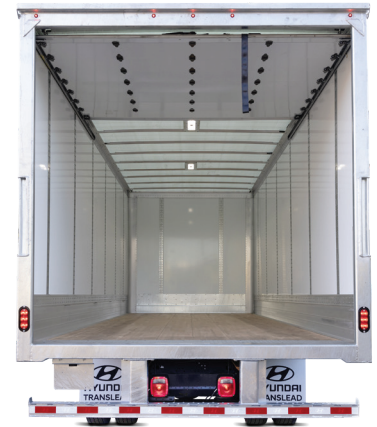

Anza can be shipped to its final destination as multiple kits, optimizing time, ensuring flexibility and maximizing efficiency.

STEP 03

Assembly & Delivery

Easily assembled and mounted on your choice of chassis on-site, and delivered to the end customer in a reduced amount of time.

STANDARD FEATURES:

- Independent side panels provide unmatched durability and allow for easy repair or replacement.
- 16" extended interior scuff enhances stiffness and scrape resistance.
- Roll-up doors offer ease of loading and unloading.
- One-piece translucent roof panel provides enhanced visibility and operational efficiency.
- Hot-dipped galvanized components protect against harsh elements and damage.

Product Specifications

	Exterior	Interior
Length	26' 5-5/8"	26'
Width	102.36"	101.5" (above side scuff, wall to wall)
Height	108-3/4" (not including base rails)	102" Nominal
Standard Weight	4,400 lbs. (not including truck mounting accessories)	

The inset grab handles are protected against impact damage.

Crossmembers are hot-dipped galvanized and support the standard 1-1/8" laminated oak floor.

Extended bottom rail and composite side panels provide greater durability.

OPTIONAL FEATURES:

- Vertical logistics on 24" or 48" centers accommodate your preferred accessories for easy load securement, including e-tracks, wood slats, and d-rings.
- Liftgate options ensure compatibility with the standard rear impact guard.
- Preferred ramp options available for factory or field installation.
- Additional aluminum roof option to fit your needs.

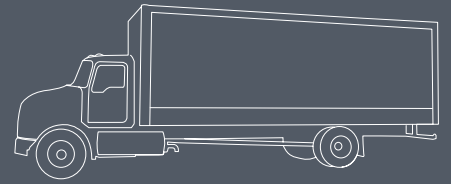

AVAILABLE WITH HT LinkVue™

A 360-degree view camera system around the trailer that improves driver visibility and reduces blind spots, greatly minimizing damage, down time, and shipper impacts.
